A **Basic Installation** includes a 18" x 20' culvert pipe, rip rap headwall and sod where needed around the culvert. **Fill dirt needed to cover the pipe must be supplied by the landowner and on-site at the time of the installation.**

_____ \$300.00 for one basic culvert installation

_____ \$600.00 for two basic culvert installations

A **Limited Installation** includes District installation of a 18" x 20' culvert pipe followed by sod placement. **Poured surface and concrete headwall is responsibility of landowner. Prior to pouring, landowner must schedule an inspection and show proof of County permit.**

_____ \$200.00 for each limited DISTRICT road culvert installation

Please read and initial:

(Initials) Any upgrades from Basic Installation are at the owner's expense. **Elevation for culvert is determined at installation and I understand that I may have to purchase material for culvert area or driveway.**

(Initials) I understand that I need to contact Palm Beach County to apply for a permit if I decide to cover my driveway with a permanent surface such as Concrete, Asphalt, Pavers, etc.

(Initials) I also understand that maintenance of the culvert is my responsibility and I have received maintenance instructions.

I agree to the terms and conditions set forth by South Indian River Water Control District.
